Profile

Experienced full stack developer with a background in software engineering. Skilled in all aspects of full-stack development, with a keen eye for detail and a passion for creating high-quality, user-friendly applications. Seeking a full stack developer position where I can utilize my expertise to contribute to innovative projects and drive successful outcomes.

Work experience

07/2023 – present
addis ababa, ethiopia

Full stack developer eagile line

- Developed and implemented responsive web applications using HTML, CSS, and JavaScript, resulting in improved user experience and increased customer engagement.
- Collaborated with cross-functional teams to design and develop RESTful APIs, enhancing system performance and scalability.
- Utilized Agile methodologies to manage and prioritize project tasks, ensuring on-time delivery and successful deployment of software solutions.
- Conducted thorough testing and debugging of code to identify and resolve issues, resulting in a 20% decrease in bugs and system errors.

Education

04/2022 – present
adama, ethiopia

software engineering | BCs Degree adadama science and technology university

- Developed and implemented a custom web application for a local non-profit organization to streamline donation tracking, resulting in a 20% increase in donations in the first quarter.
- Conducted research on emerging technologies in the field of artificial intelligence and machine learning, presenting findings to faculty and peers during a student-led seminar.
- Collaborated with a team of fellow students to design and build a mobile application for a class project, successfully meeting all project deadlines and earning top marks from professors.
- Participated in a semester-long internship with a software development company, gaining hands-on experience in coding, debugging, and troubleshooting complex software systems.
